

In year 3 and 4, we have been making art work linked to our topic, The Stone Age. We have been creating our very own cave paintings. Instead of drawing on the desks we drew under the desks because in the Stone Age would have completed their drawings in uncomfortable places. We also made our own paint like the cavemen would have. We made a brown paint with mud, a pink paint with beetroot, a black paint with charcoal and a yellowy green paint with onion. We used sticks, stones and fingers to create our paintings. We have loved our topic art over the last week!
