

A Special Visitor

In year 3 and 4 we have had a very special visitor come into school last week, to help us with our topic work. We were lucky enough to have Boudicca visit us on Tuesday afternoon. We were able to ask her lots of questions and learn lots of information. Boudicca was a Celtic Queen who fought the Roman Army. She was very brave and fierce.

As you can see from our picture our Boudicca was really Mrs Sheppard dressed up in character!!!

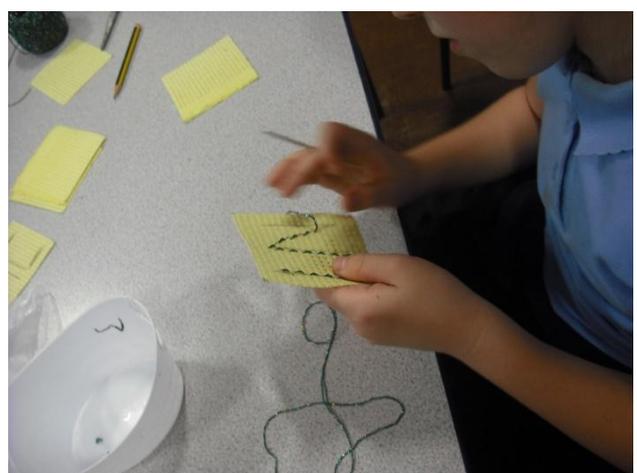

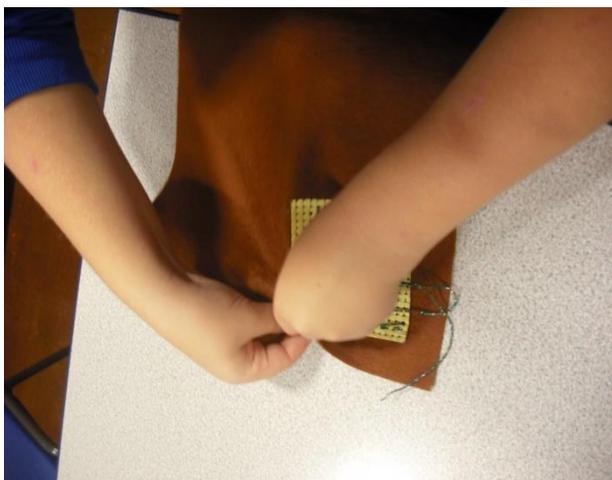

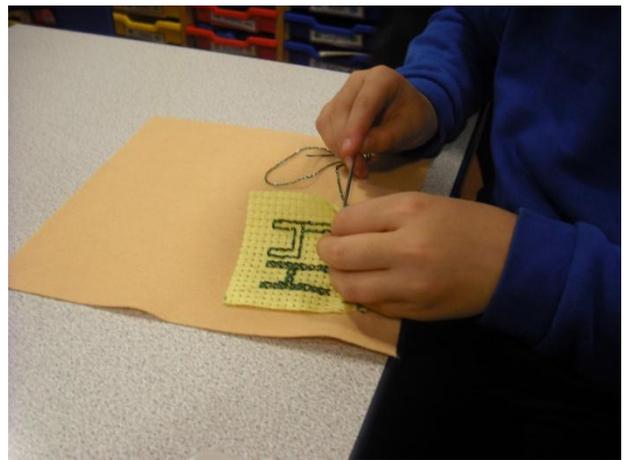

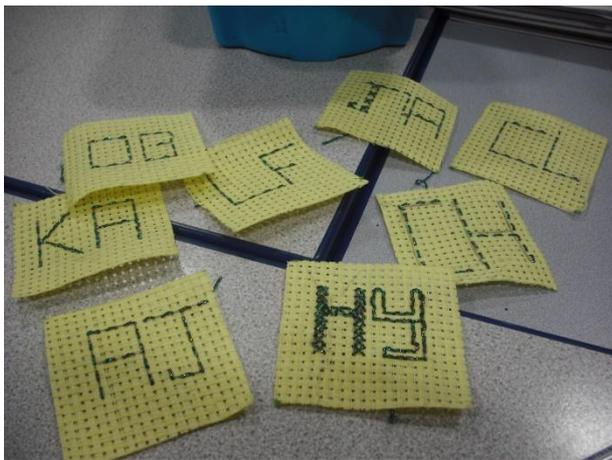

Science in Year 3 and 4

We have been looking at different states. We have learnt that there are three different states: Gases, Liquids and Solids. We have been carrying out investigations with lots of different materials. We had to see if we could find gases in the classroom. One of our investigations was to see if we could squish a plastic bottle when the lid was on. We found out that we couldn't squish it because the gas inside couldn't escape.

Roman Purses

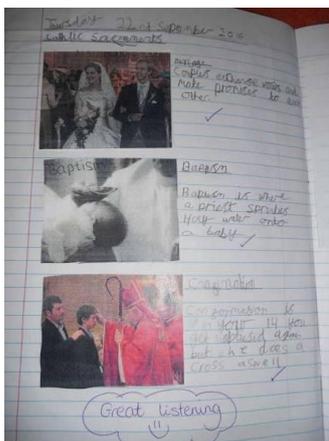

In our Design and Technology lessons we have been making Roman Purses. We had to first design our purse and think about what materials we were going to use. Then we made our purse by doing lots of sewing. We did cross stitch and running stitch. After, we evaluated our purse by seeing if it could hold 5 coins. Although we found the sewing difficult, we really enjoyed making our purses!

Year 3/4 RE - Autumn 2016

In Year 3/4 the children have been exploring places of worship for Muslims and Christians. The children have labelled the significant areas of a Mosque and explored Catholic Sacraments.

Here the children are creating questions to ask a person who regularly visits a place of worship.

Here is some fantastic writing about Catholic Sacraments.

We found it fascinating learning all about the different places and how ceremonies are performed!
