

WE CAN BUILD A DEN

19 October 2015

We worked together to build and improve our den

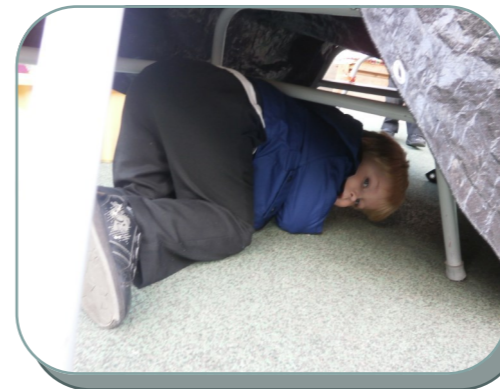

First we marked out our den using crates and large apparatus.
Using the pegs to build the den helps us to build strength in our hand muscles.

We explored over and under.
We worked together to open the tarpaulin ready to put on the den.

Hiding under our den was so much fun.

EYFS links

- Uses one-handed tools and equipment 30-50

Characteristics of effective learning. Being willing to have a go.

- Seeking challenge •Showing a 'can do' attitude •Taking a risk, engaging in new experiences.
