## NEW Technology to look out for in 2017!

Every year in Las Vegas, America, thousands of people turn up to one of the largest technology events in the world. This event is called The Consumer Electronic Show, or CES for short. There are many companies there who look to promote their products, such as televisions, smartphones, laptops, drones and other gadgets to help your life! One of the top products at this year's show was Virtual Reality (VR) headsets. These products you wear as glasses and you are able to control characters in games! Imagine being able to build something in a realistic Minecraft world using your hands!

Also, there were many portable Bluetooth speakers as well as a T.V by Samsung that was as thin as wallpaper!

## TOP 5 New Year's School Resolutions

1. Try and read more at home.
2. To try my best at school.
3. To get on with my friends.
4. To listen and be respectful of all staff in school.
5. To complete my homework on time.

## EFL Under 11s Football Tournament Year 5&6

On Wednesday the 18th January, 8 children were selected, based on their outstanding behaviour and attitude, as well as football ability, to represent Beaufort School at the English Football League Cup at DW Stadium on Pride Park. Over the three days the tournament was played, over 70 school teams took part, with the eventual winners going on to play at Wembley Stadium!!! The atmosphere was electric as Beaufort took to the pitch for the first time. Unfortunately though, things didn't go to plan in the first match as William Gilbert school took an early 2-0 lead. Beaufort battled hard to try and get a goal, but went down 2-0. The second game was against Walter Evans school, who eventually won the tournament, and although Beaufort had numerous shots on target, again lost 2-0. It looked as though Beaufort were going out, but a brilliant 3-0 win against St. Werburghs and an impressive 5-0 over Westhouses, with goals from Karmand G and Joe M, gave Beaufort a chance of coming runners-up in their group! Going into the last game Beaufort needed a win against Pennine school, who needed just a draw to come second in the group. After a tough opening three minutes, a brilliant break from midfield, Joe M rounded two defenders and struck a fierce shot into the bottom corner! Beaufort held out till the last minute of the game, when a break from Pennine school left Beaufort open at the back and scored a timely equaliser! The match ended 1-1, which meant that Pennine school went through and Beaufort were knocked out. Although the children were disappointed with the result, they had played brilliantly, after a slow start and were a credit to Beaufort school, for their determination and hard work. The next tournament is at DW Sports in June, so hopefully they'll go one further and make it to the knock out stage!

## English & Maths Quiz

**N**ow we're back at school after our lovely Christmas and New Year break, it's back to school-work and of course... **HOMEWORK!** But, do we really need to do homework? For almost 100 years, politicians, schools, parents and most importantly **KIDS** have had their opinion on homework! Do kids do enough? Should there be **NO** homework at all, or should we do all our homework during school time? So, we decided to ask a group of Year 5 & 6 children their opinion on what they think about homework!

**"I think homework is a really good idea, as it helps you with stuff you may not know."** Ruby H-W.

**"I think we shouldn't get homework, as we work really hard at school and I like to relax and play when I'm at home."** Owen S.

**"I find it really hard to do my homework, as I have a baby brother and my mum and dad are always having to sort them out and never have time to help me with my homework."** Anonymous.

**"I like doing homework, as it helps me learn things for when I'm older, that I might need to know, when I'm at university or have a job."** James L.

If you have an opinion on homework, whether it's too much or too little, then why not speak to your school council member in your class!

Q1. How many letters are there in the alphabet?

Q2. How many years are there in a century?

Q3. What is the only lower case letter in the alphabet that ascends to the top line and descends to the bottom line?
