

Year 3 and 4 Spring Term Update

Eiffel Towers and Musical
Performance

Eiffel Tower Construction

After planning and designing their Eiffel Towers the children got to work.

They had to use the materials and equipment they had specified on their plans.

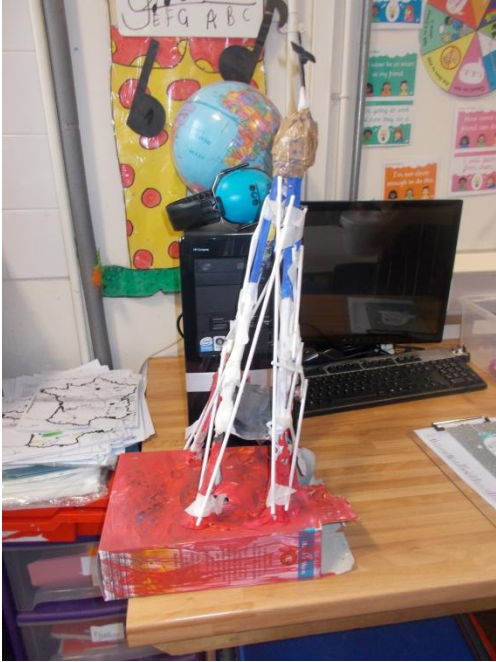

The towers soon grew to be very tall and they were able to test different materials to see which were stronger and best suited to the task.

Eiffel Tower Construction

The children enjoyed the challenge of the construction and even with some towers collapsing they were quick to re-build. An excellent way to build their resilience!

Completed Eiffel Towers

Upon completion of the structure the children then constructed an electrical circuit so they could light up their towers. They were then decorated and painted.

Musical Performance

- Year 4 Brass
- Year 3 Recorder Performance

Year 3 and 4 treated us to a brass performance, recorder performance.

They then sang their favourite Moana song.

Thank you to all the parents who attended our assembly!
